Pago AG designs, manufactures, and supplies self-adhesive labels for customers in Switzerland and internationally. It offers self-adhesive labels and sleeves, such as decoration, promotional, function, shrink sleeve, multi-page, and leaflet labels; labels for marking and identification; and thermal-transfer ribbons. The company also designs, builds, and installs various labeling machines and systems, such as label applicators, linear systems, and rotary labeling systems, as well as offers labeling software solutions. In addition, its services include design consulting, material analysis, laboratory assessments, adhesive testing and selection, production of samples, and jobbing labeling. The company serves customers in various sectors, such as hair and body care, pharmaceuticals and chemicals, food and beverage, and logistics. Products & Solutions

Labels Our product portfolio in the division labels ranges from diverse single-layer to multi-layer labels, as well as functional labels and ribbons. In these areas we can address your needs, no matter if you are looking for decoration, promotion, information, function or a combination of these. With our employees of packaging

specialists and our experience over decades, we will find a solution to your individual packaging requirements. For more than half a century Pago stands for technically mature labels and labelling systems. We operate globally and provide our international customers individual solutions, so that their products look even more valuable: From simple and multi-layer labels and booklets to highly specialized functional labels.

Single-layer Labels Multi-layer Labels Functional Labels Ribbons
